SUMMARY

A motivated and ambitious professional seeking a position as a **Junior QA Engineer** to join a team of experts. I have a strong theoretical foundation in software testing and am eager to apply it in practice. I am familiar with test design techniques and have practical experience creating test documentation and working with bug-tracking systems (Jira, TestRail, etc.). I understand the principles of client-server architecture and can test APIs (Fiddler, Postman), web applications (Chrome Devtools), and mobile applications (Android Studio, Xcode). I work with databases (MySQL, MongoDB) and have experience developing and implementing CRM systems based on Google Sheets. I know the Python programming language and am currently learning about test automation processes. Familiar with Linux, binary code, and Git version control system.

I value honesty, intelligence, and responsibility in myself and others. I am eager to continue growing in a dynamic IT environment.

EDUCATION

Software Testing Course (certified):

2024

- Software Testing Theory (ISTQB Standard)
- Project and Bug Tracking Systems: Jira, Trello, Confluence, Bugzilla
- Interfaces: HTML, CSS, REST API, XML, JSON
- Tools: Postman, Fiddler, Chrome DevTools
- Databases: SQL (MySQL), NoSQL (MongoDB)
- Automation: Selenium WebDriver
- IDEs (Android Studio, XCode)

Python Programming Course (certified):

2023 – 2024

- Python Syntax
- Algorithms and Data Structures
- Object-Oriented Programming
- Standard Python Library
- IDEs (PyCharm, Visual Studio Code)
- Version Control: Git

Master's degree, Project Management.

1999 – 2005

Kyiv National University of Construction and Architecture

WORK EXPERIENCE

While I do not have a traditional IT work history, I have gained a diverse range of skills through various roles in the following industries:

Online Gaming (4 years):

- Managed and maintained international gaming accounts.
- Conducted testing for promotions, payment systems, websites, and mobile apps.
- Developed and implemented CRM systems using Google Sheets.
- Led team expansion and market penetration efforts.

Skills: Windows Server, VMware, Team Viewer, Google Sheets, CRM development, testing, team leadership.

Blockchain and Mining (6 years):

- Built, configured, administrated, and maintained mining rigs.
- Managed cryptocurrency wallets and investments.

Skills: Linux, Blockchain, Cryptocurrencies, Hardware Engineering.

Engineering (6 years):

- Designed, installed, and maintained electrical systems for residential and commercial properties.
- Designed and installed solar energy systems.
- Integrated smart home systems.

Skills: Engineering, Smart Home systems, Business planning.

Construction (6 years):

- Conducted market research and developed project concepts.
- Managed construction projects from design to completion.
- Developed and managed project budgets.
- Implemented new business initiatives and expanded into new markets.

Skills: ArchiCAD, AutoCAD, Microsoft Office, Project management, Business development.

THEORIES, TOOLS & TECHNOLOGIES

■ SDLC, STLC

■ Confluence, Jira, TestRail

■ REST API, Postman, Fiddler

■ SQL, MySQL, MongoDB

■ Selenium WebDriver

■ Git, GitHub, GitLab

■ Python

■ Agile, Scrum, Kanban

■ Google Docs, Google Sheets

■ HTML, CSS, XML, JSON

■ Android Studio, XCode

■ VS Code, PyCharm

■ Chrome DevTools

TEST DOCUMENTATION

- Test Plan
- Test Cases
- Bug Reports
- Test Suites
- Checklists
- Test Reports

OPERATING SYSTEMS

- Microsoft Windows
- Linux
- Android OS

SOFT SKILLS

- Strong analytical skills
- Quick learner
- Teamwork
- Stress resistance
- Strong analytical skills
- Initiative
- Self-organized
- Highly responsible

ADDITIONAL INFORMATION

- Readiness to continue learning and self-improvement.
- Belief in the ability of digital technologies to change life for the better.
- Willingness to work for results in a team of professionals and like-minded people.

LANGUAGES

English - Upper-Intermediate

German - Pre-Intermediate

Ukrainian - Native
